

MONDIAL[®]

Patient Transport System

The Ferno Mondial® Patient Transport System has been designed with Smart-Load™ system technology to make your job easier with smooth, simple, ergonomic operation of the transporter when loading and unloading from an ambulance, and when lifting or lowering the patient load at the scene.

MAIN FEATURES

- Smooth, Safe, Easy Loading and Unloading with the exclusive EZ Load™ Auto-Release System. Reduce Wrist Strain and Set Body Position before lifting or lowering the patient with the EZ Pull™ Release Handle.
- Support Optimal Ergonomics for operators when lifting or moving the stretcher using telescoping handles.
- Additional operators can provide Added Lift Assistance on heavy patient loads with side lift handles.
- Easy, Intuitive Operation with color coded controls and automatic leg-release.
- Positive Feedback when the legs are locked or unlocked using the leg lock indicator.
- Easy Rolling over all types of terrain with large 200 mm wheels and Safety with rear wheel brakes.
- Maximum Maneuverability in tight spaces with easy to use swivel lock/release mechanism.
- Easy Patient Transfer from different surface levels using multiple height positions.
- Nighttime Visibility on scene with reflective labels.
- Strong and Durable for long service life with metal frame construction.
- Conforms to International Standards EN1865 and EN1789.
