NO JOB IS TOO BIG,
WITH THE RIGHT EQUIPMENT.

SUPPORTING OPERATORS IN CHALLENGING HEAVY LOAD RESCUES

Ferno's 26-B Heavy Load and TSL Expander Kit increase the **operator's ability to assist and the comfort of patients**, simplifying the **most complicated and time-sensitive phases of the rescue**.

Ferno TSL EXPANDER KIT

An robust aluminium accessory that attaches to the Scoop EXL atraumatic trolley. Designed for easy movement and transport of a large patient.

When combined with the Easy Lift system, the Scoop EXL trolley and TSL Expander Kit can also be used with lifting equipment.

THE KIT CONTAINS:
2 x red extenders;
3 x belt extensions;
1 x carrying bag.

DESIGNED FOR RESCUE WORKERS

New **intuitive handles** for easy control by the operator during the unloading phase.

REINFORCED STRUCTURE

New lightweight reinforced structure with a **load capacity of 280kg**.
Can be reduced in length if needed.

Ferno
26-B HEAVY LOAD

EASY TO USE

Adjustable multi-position backrest and **collapsible side rails**.

GREATER COMFORT AND SAFETY

Large wheels and **new ergonomic brakes** designed for use with safety boots.
